Villa Gros Ilets

🛏 2 🚿 2 👤 4

A stay in Villa Gros llets gives you all the ingredients for a perfect St. Barth vacation: wide Caribbean Sea views, plentiful sunshine, beach and town both nearby, and spectacular sunsets to top it off. Built in an efficient and easygoing tropical style, this home is ideal for first-time visitors, those who like to be convenient to the shops in Gustavia, and fans of the nearby Gouverneur Beach. The villa's two bedroom are on the lower level; the terrace, pool and common areas are on the upper level.

With a vista looking out over the harbor in one direction and south toward Saba and our other neighboring islands in the other, Gros llets will tempt you to grab a good book and simply spend the day poolside in the comfort of your own home. The kitchen is open and airy, great for preparing meals in the company of guests. The two bedrooms are breezy as well and look out over the spectacular view, and each has a private ensuite bath with rain-head shower.
