Villa La Montagne

2 2 4

What's the main appeal of Villa La Montagne? That's easy. The luxury rental property in the heights of Vitet has sweeping views over the turquoise waters of Grand Cul de Sac and some of St. Barth's neighboring islands.

The best place to savor those vistas is the good-size thoughtfully planned terrace, which has covered and sunny seating, dining, and lounging areas, and a petite swimming pool. Indoors, the owners chose to keep things simple, using a casual, seaside decorating style.

The light-filled living room is air-conditioned and has an Apple TV, and the kitchen has all the basics covered. These spaces are separated from one another by a stone breakfast bar, although chances are that you will want to start your days with coffee on the terrace.

The master bedroom has a queen-size bed, Apple TV, and an ensuite bathroom. The second bedroom also has a queen-size bed and Apple TV, as well as an adjacent bathroom. Both of the bedrooms, as well as the living room, open onto the terrace.
